

PLEASE REVIEW THIS POLICY CAREFULLY AND  
SIGN THE ATTACHED FORM OF ACKNOWLEDGEMENT WHERE INDICATED

April, 2013

**ROMIOS GOLD RESOURCES INC.  
DISCLOSURE POLICY**

**OBJECTIVE AND SCOPE**

The objective of this disclosure policy is to ensure that communications to the investing public about the Company are:

- in compliance with all applicable regulatory requirements;
- timely, factual and accurate; and
- broadly disseminated in accordance with all applicable legal and regulatory requirements.

This disclosure policy confirms in writing our existing disclosure policies and practices. Its goal is to raise awareness of the Company's approach to disclosure among the board of directors, senior management and employees.

This disclosure policy extends to all employees of the Company, its board of directors and those authorized to speak on its behalf including external investor relations consultants. It covers disclosures in documents filed with the securities regulators and written statements made in the Company's annual and quarterly reports, news releases, letters to shareholders, presentations by senior management and information contained on the Company's Web site and other electronic communications. It extends to oral statements made in meetings and telephone conversations with analysts and investors, interviews with the media as well as speeches, press conferences and conference calls.

**DISCLOSURE POLICY COMMITTEE**

The board of directors has appointed a disclosure policy committee ("**Disclosure Committee**") responsible for overseeing the Company's disclosure practices. The Disclosure Committee currently consists of the Chief Executive Officer, one director and the Corporate Secretary. As the Company expands, the Disclosure Committee will be increased as deemed appropriate by the board of directors.

In accordance with the Company's Audit Committee Charter, in addition to the review by the Disclosure Committee, the Audit Committee shall review all press releases relating to disclosure of the Company's financial statements and MD&A.

The Disclosure Committee will set benchmarks for a preliminary assessment of materiality and will determine when developments justify public disclosure. The Disclosure Committee will meet as conditions dictate and minutes of meetings will be maintained as required. **It is**

**essential that the Disclosure Committee be kept fully apprised of all pending material Company developments in order to evaluate and discuss those events and to determine the appropriateness and timing for public release of information.** If it is deemed that the information should remain confidential, the Disclosure Committee will determine how that inside information will be controlled.

The Disclosure Committee will review and update, if necessary, this disclosure policy on an annual basis or as needed to ensure compliance with changing regulatory requirements. The Disclosure Committee will report to the board of directors on an annual basis.

## **PRINCIPLES OF DISCLOSURE OF MATERIAL INFORMATION**

Material information is any information relating to the business and affairs of the Company that results in, or would reasonably be expected to result in, a significant change in the market price or value of the Company's securities or that would reasonably be expected to have a significant influence on a reasonable investor's investment decisions.

Examples of information or events that are likely to require disclosure include:

1. exploration results;
2. changes in relation to directors and senior officers;
3. changes in control of share ownership of the Company;
4. public or private issuances of securities;
5. amendments to the Company's share capital;
6. significant litigation;
7. mergers, acquisitions, dispositions, joint ventures or a material change in assets;
8. significant developments in new projects or ventures; and
9. material information affecting joint venture partners;

Where there is any doubt as to whether information constitutes material information, the Disclosure Committee will assess the circumstances with the board of directors and, if necessary, seek external professional advice.

In complying with the requirement to disclose forthwith all material information under applicable laws and stock exchange rules, the Company will adhere to the following basic disclosure principles:

1. Material information will be publicly disclosed immediately via news release.
2. In certain circumstances, the Disclosure Committee may determine that such disclosure would be unduly detrimental to the Company (for example if release of the information would prejudice negotiations in a corporate transaction), in which case the information will be kept confidential until the Disclosure Committee determines it is appropriate to publicly disclose. In such circumstances, the Disclosure Committee will cause a confidential material change report to be filed with the applicable securities regulators, and will periodically (at least every 10 days) review its decision to keep the information confidential (also see 'Rumours').

3. Disclosure must include any information the omission of which would make the rest of the disclosure misleading (half truths are misleading).
4. Unfavourable material information must be disclosed as promptly and completely as favourable information.
5. No selective disclosure. Previously undisclosed material information must not be disclosed to selected individuals (for example, in an interview with an analyst or in a telephone conversation with an investor). If previously undisclosed material information has been inadvertently disclosed to an analyst or any other person not bound by an express confidentiality obligation, such information must be broadly disclosed immediately via news release.
6. Disclosure on the Company's Web site alone does not constitute adequate disclosure of material information.
7. Disclosure must be corrected immediately if the Company subsequently learns that earlier disclosure by the Company contained a material error at the time it was given.

## **REVIEW OF DOCUMENTS**

The Disclosure Committee will review all communications to the market to ensure that they are full and accurate and comply with all of the obligations of the Company. Such communications include news releases, analyst, investor and other presentations, prospectuses and other offering documents and other corporate publications.

## **TRADING RESTRICTIONS AND BLACKOUT PERIODS**

The Company has implemented an insider trading policy which governs trading restrictions and blackout periods. All employees, directors and officers are required to become familiar with this policy.

## **MAINTAINING CONFIDENTIALITY**

Any employee privy to confidential information is prohibited from communicating such information to anyone else, unless it is necessary to do so in the course of business. Efforts will be made to limit access to such confidential information to only those who need to know the information and such persons will be advised that the information is to be kept confidential.

Communication by e-mail leaves a physical track of its passage that may be subject to later decryption attempts. All confidential information being transmitted over the Internet must be secured by the strongest encryption and validation methods available. Where possible, employees should avoid using e-mail to transmit confidential information.

Outside parties privy to undisclosed material information concerning the Company will be told that they must not divulge such information to anyone else, other than in the necessary course of business and that they may not trade in the Company's securities until the information is publicly disclosed. Such outside parties will confirm their commitment to non-disclosure in the form of a written confidentiality agreement.

In order to prevent the misuse or inadvertent disclosure of material information, the procedures set forth below should be observed at all times:

1. Documents and files containing confidential information should be kept in a safe place to which access is restricted to individuals who “need to know” that information in the necessary course of business and code names should be used if necessary.
2. Confidential matters should not be discussed in places where the discussion may be overheard, such as elevators, hallways, restaurants, airplanes or taxis.
3. Confidential matters should not be discussed on wireless telephones or other wireless devices.
4. Confidential documents should not be read or displayed in public places and should not be discarded where others can retrieve them.
5. Employees must ensure they maintain the confidentiality of information in their possession outside of the office as well as inside the office.
6. Transmission of documents by electronic means, such as by fax or directly from one computer to another, should be made only where it is reasonable to believe that the transmission can be made and received under secure conditions.
7. Unnecessary copying of confidential documents should be avoided and documents containing confidential information should be promptly removed from conference rooms and work areas after meetings have concluded. Extra copies of confidential documents should be shredded or otherwise destroyed.
8. Access to confidential electronic data should be restricted through the use of passwords.

## **DESIGNATED SPOKESPERSONS**

The Company designates a limited number of spokespersons responsible for communication with the investment community, regulators or the media. The Chief Executive Officer shall be the official spokesperson for the Company. Individuals holding this office may, from time to time, designate others within the Company to speak on behalf of the Company as back-ups or to respond to specific inquiries.

Employees who are not authorized spokespersons must not respond under any circumstances to inquiries from the investment community, the media or others, unless specifically asked to do so by an authorized spokesperson. All such inquiries shall be referred to the Chief Executive Officer.

## **NEWS RELEASES**

Once the Disclosure Committee determines that a development is material, it will authorize the issuance of a news release, unless the Disclosure Committee determines that such developments must remain confidential for the time being, appropriate confidential filings are made and control of that inside information is instituted. Should a material statement inadvertently be made in a selective forum, the Company will immediately issue a news release in order to fully disclose that information.

**If the stock exchange upon which shares of the Company are listed is open for trading at the time of a proposed announcement, prior notice of a news release announcing material**

**information must be provided to the market surveillance department when required to enable a trading halt, if deemed necessary by the stock exchange.**

Annual and interim financial results may be publicly released immediately following board approval of the financial statements as deemed appropriate.

News releases will be disseminated through an approved news wire service that provides simultaneous national and/or international distribution. News releases will be transmitted to all stock exchange members, relevant regulatory bodies, major business wires, national financial media and the local media in areas where the Company has its headquarters and operations.

News releases will be posted on the Company's Web site immediately after release over the news wire. The news release page of the Web site shall include a notice that advises the reader that the information posted was accurate at the time of posting, but may be superseded by subsequent news releases.

## **CONFERENCE CALLS**

Conference calls will be held for major corporate developments as the Disclosure Committee may so determine from time to time, whereby discussion of key aspects is accessible simultaneously to all interested parties, some as participants by telephone and others in a listen-only mode by telephone or via a webcast over the Internet. The call will be preceded by a news release containing all relevant material information. At the beginning of the call, a Company spokesperson will provide appropriate cautionary language with respect to any forward-looking information and direct participants to publicly available documents containing the assumptions, sensitivities and a full discussion of the risks and uncertainties.

The Company will provide advance notice of the conference call and webcast by issuing a news release announcing the date and time and providing information on how interested parties may access the call and webcast. In addition, the Company may send invitations to analysts, institutional investors, the media and others invited to participate. Any non-material supplemental information provided to participants will also be posted to the Web site for others to view. A tape recording of the conference call and/or an archived audio webcast on the Internet will be made available following the call for a minimum of 30 days, for anyone interested in listening to a replay.

The Disclosure Committee will hold a debriefing meeting immediately after the conference call and if such debriefing uncovers selective disclosure of previously undisclosed material information, the Company will immediately disclose such information broadly via news release.

## **RUMOURS**

The Company does not comment, affirmatively or negatively, on rumours. This also applies to rumours on the Internet. The Company's spokespersons will respond consistently to those rumours, saying, "It is our policy not to comment on market rumours or speculation." Should the stock exchange request that the Company make a definitive statement in response to a market

rumour that is causing significant volatility in the stock, the Disclosure Committee will consider the matter and decide whether to make a policy exception. If the rumour is true in whole or in part, the Company will immediately issue a news release disclosing the relevant material information.

## **CONTACTS WITH ANALYSTS, INVESTORS AND THE MEDIA**

Disclosure in individual or group meetings does not constitute adequate disclosure of information that is considered material non-public information. If the Company intends to announce material information at an analyst or shareholder meeting or a press conference or conference call, the announcement must be preceded by a news release.

The Company recognizes that meetings with analysts and significant investors are an important element of the Company's investor relations program. The Company will meet with analysts and investors on an individual or small group basis as needed and will initiate contacts or respond to analyst and investor calls in a timely, consistent and accurate fashion in accordance with this disclosure policy.

The Company will provide only non-material information through individual and group meetings, in addition to regular publicly disclosed information, recognizing that an analyst or investor may construct this information into a mosaic that could result in material information. The Company cannot alter the materiality of information by breaking down the information into smaller, non-material components.

The Company will maintain a 'frequently asked questions' section on its Web site when it deems it appropriate in order to provide the same sort of detailed, non-material information to individual investors or reporters that it has provided to analysts and institutional investors.

Spokespersons will keep notes of telephone conversations with analysts and investors and where practicable more than one Company representative will be present at all individual and group meetings. A debriefing will be held after such meetings and if such debriefing uncovers selective disclosure of previously undisclosed material information, the Company will immediately disclose such information broadly via news release.

## **REVIEWING ANALYST DRAFT REPORTS AND MODELS**

It is the Company's policy to review, upon request, analysts' draft research reports or models. The Company will review the report or model for the purpose of pointing out errors in fact based on publicly disclosed information. It is the Company's policy, when an analyst inquires with respect to his/her estimates, to question an analyst's assumptions if the estimate is a significant outlier among the range of estimates and/or the Company's published earnings guidance. The Company will limit its comments in responding to such inquiries to non material information. The Company will not confirm, or attempt to influence, an analyst's opinions or conclusions and will not express comfort with the analyst's model and earnings estimates.

In order to avoid appearing to “endorse” an analyst’s report or model, the Company will provide its comments orally or will attach a disclaimer to written comments to indicate the report was reviewed only for factual accuracy.

## **DISTRIBUTING ANALYST REPORTS**

Analyst reports are proprietary products of the analyst’s firm. The Company may post on its Web site a complete list, regardless of the recommendation, of all the investment firms and analysts who provide research coverage on the Company. If provided, such list will not include links to the analysts’ or any other third party Web sites or publications. Re-circulating a report by an analyst may be viewed as an endorsement by the Company of the report. For these reasons, the Company will not provide analyst reports through any means to persons outside of the Company or to employees of the Company, including posting such information on its Web site, unless the complete list of analysts’ reports is also provided.

## **FORWARD-LOOKING INFORMATION**

Should the Company elect to disclose forward-looking information (“**FLI**”) in continuous disclosure documents, speeches, conference calls, etc., the following guidelines will be observed.

1. The information, if deemed material, will be broadly disseminated via news release, in accordance with this disclosure policy.
2. The information will be clearly identified as forward looking.
3. The Company will identify all material assumptions used in the preparation of the forward-looking information.
4. The information will be accompanied by a statement that identifies, in very specific terms, the risks and uncertainties that may cause the actual results to differ materially from those projected in the statement, including a sensitivity analysis to indicate the extent to which different business conditions from the underlying assumptions may affect the actual outcome.
5. The information will be accompanied by a statement that disclaims the Company’s intention or obligation to update or revise the FLI, whether as a result of new information, future events or otherwise, except as may be required by law. Notwithstanding this disclaimer, should subsequent events prove past statements about current trends to be materially off target, the Company may choose to issue a news release explaining the reasons for the difference. In this case, the Company will update its guidance on the anticipated impact on revenue and earnings (or other key metrics).

If the Company has issued a forecast or projection in connection with an offering document covered by applicable securities laws, the Company will update that forecast or projection periodically, as required by applicable securities laws.

## **MANAGING EXPECTATIONS**

The Company will try to ensure, through its regular public dissemination of quantitative and qualitative information, that analysts’ estimates are in line with the Company’s own expectations. The Company will not confirm, or attempt to influence, an analyst’s opinions or conclusions and will not express comfort with analysts’ models and earnings estimates.

If the Company has determined that it will be reporting results materially below or above publicly held expectations, it will disclose this information in a news release in order to enable discussion without risk of selective disclosure.

## **QUIET PERIODS**

In order to avoid the potential for selective disclosure or even the perception or appearance of selective disclosure, the Company will observe quiet periods as the Disclosure Committee may so determine from time to time, during which the Company will not initiate or participate in any meetings or telephone contacts with analysts and investors and no forward looking statements will be provided to anyone, other than responding to unsolicited inquiries concerning factual matters. The quiet period procedures will be utilized whenever there are significant undisclosed material developments which are pending.

## **DISCLOSURE RECORD**

The Chief Executive Officer will maintain for a minimum of five years a file containing all public information about the Company, including continuous disclosure documents, news releases, analysts' reports, transcripts or tape recordings of conference calls, debriefing notes, notes from meetings and telephone conversations with analysts and investors, and newspaper articles.

## **RESPONSIBILITY FOR ELECTRONIC COMMUNICATIONS**

This disclosure policy also applies to electronic communications. Accordingly, officers and personnel responsible for written and oral public disclosures shall also be responsible for electronic communications.

The Chief Executive Officer is responsible for updating the investor relations section of the Company's Web site and is responsible, along with the general counsel, for monitoring all Company information placed on the Web site to ensure that it is accurate, complete, up-to-date and in compliance with relevant securities laws.

The Disclosure Committee must approve all links from the Company Web site to a third party Web site. Any such links will include a notice that advises the reader that he or she is leaving the Company's Web site and that the Company is not responsible for the contents of the other site.

Investor relations material shall be contained within a separate section of the Company's Web site and shall include a notice that advises the reader that the information posted was accurate at the time of posting, but may be superceded by subsequent disclosures. All data posted to the Web site, including text and audiovisual material, shall show the date such material was issued. Any material changes in information must be updated immediately. The Chief Executive Officer or the Company's Information Technology Consultant/employee responsible for updating the website will maintain a log indicating the date that material information is posted and/or

removed from the investor relations Web site. The minimum retention period for material corporate information on the Web site shall be two years.

Disclosure on the Company's Web site alone does not constitute adequate disclosure of information that is considered material non-public information. Any disclosures of material information on its Web site will be preceded by the issuance of a news release

The Chief Executive Officer shall also be responsible for responses to electronic inquiries. Only public information or information which could otherwise be disclosed in accordance with this disclosure policy shall be utilized in responding to electronic inquiries.

In order to ensure that no material undisclosed information is inadvertently disclosed, employees are prohibited from participating in Internet chat rooms or newsgroup discussions on matters pertaining to the Company's activities or its securities. Employees who encounter a discussion pertaining to the Company should advise the Chief Executive Officer immediately, so the discussion may be monitored.

## **COMMUNICATION AND ENFORCEMENT**

This disclosure policy extends to all employees of the Company, its board of directors and authorized spokespersons. New directors, officers and employees will be provided with a copy of this disclosure policy and will be educated about its importance. This disclosure policy will be circulated to all employees on an annual basis and whenever changes are made.

Any employee who violates this disclosure policy may face disciplinary action up to and including termination of his or her employment with the Company without notice. The violation of this disclosure policy may also violate certain securities laws. If it appears that an employee may have violated such securities laws, the Company may refer the matter to the appropriate regulatory authorities, which could lead to penalties, fines or imprisonment.

## **ACKNOWLEDGEMENT**

All employees, directors, officers and those authorized to speak on behalf of the Company shall sign, date and return an Acknowledgement in the form annexed hereto as **Schedule "A"**.
